Overview of LanLicenser 4.0 Service Pack 2

This paper summarizes what is new in LanLicenser 4.0 Service Pack 2 (SP2) and how to deploy the service pack.

Introduction

We aim to continually improve the performance, security, and stability of LanLicenser 4.0. As part of this effort, we develop updates, fixes, and other improvements that address issues reported by the company's customers and partners. To make it easier for customers to get these updates and enhancements, we have combined them into a single package, and make that package available for all LanLicenser 4.0 customers. These packages are called *service packs*.

LanLicenser 4.0 SP2 is available from the '*Support Center'* section on our website: www.lanlicenser.com. The download size is around 26 megabytes (MB).

What is in Service Pack 2?

LanLicenser 4.0 SP2 includes new functionality, updates and hot fixes.

New and Enhanced Functionality:

Improved support for Windows Vista (32 bit only).
Improved support for Windows 2008 (32 bit only).
Improved Software Metering Server performance and stability.
